

Accent Librarian™

Accent Librarian Overview

Accent Librarian's Technology Platform Revolutionizes the Management, Distribution and Re-Use of Critical Business Documents and Media

If you are interested in an online demo of Accent Librarian, email sales@accent-technologies.com.

Librarian is a specialized document management system optimized to provide sales and marketing teams with fast, web-based access to critical business documents presentations, rich-media files and other relevant information. Sales teams react quickly and accurately to new opportunities and marketing teams gain control over the materials presented to clients.

Librarian's Advanced Document Management (ADM) technology is a new approach to the challenge of locating and repurposing information. Instead of just providing access to files, it lets team members browse and search inside files to quickly assemble new documents from relevant content in the library or from other data sources.

With Librarian's flexible business modules, organizations can adopt and configure Librarian to meet their exact needs. Pick from our broad add-on module portfolio to add new functionality as business needs expand or change.

"Accent Librarian's Advanced Document Management (ADM) technology is a new approach to an age-old challenge. The sales team focus is on selling—reducing time spent gathering and assembling documents."

Key Benefits

- ▶ React faster to selling opportunities with precise materials and information
- ▶ Streamline the process of gathering and delivering critical information to clients
- ▶ Improve quality of service to clients and prospects by providing tailored materials

Key Capabilities

- ▶ Fully functional document management system focused on streamlining the sales and marketing process
- ▶ Full-text search and retrieval at the relevant content level (pages, slides, paragraphs)
- ▶ Powerful document assembly technology
- ▶ Web-based administration for fast library creation and maintenance
- ▶ Built-in user and group security to restrict content access to appropriate individuals or groups
- ▶ Broad portfolio of add-on modules allows organization to configure Librarian to meet exact needs
