PowerSearch Plug-In

PowerSearch Plug-In™ for PowerPoint®

PowerSearch Plug-In™ lets you locate and retrieve slides right from PowerPoint®! PowerSearch Plug-In is easy to use and makes finding slides a snap. It saves hours in sorting through PowerPoint presentations looking for the slides you need.

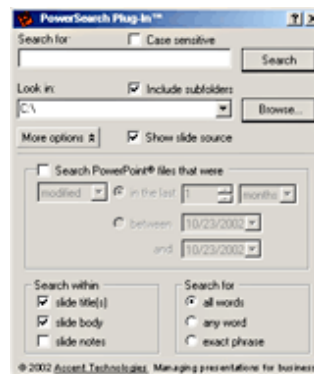

Windows® lets you search and find entire presentations, but only the PowerSearch Plug-In lets you search for and retrieve individual slides! Now, you don't have to waste time manually searching through PowerPoint presentations looking for the slides you want. Simply open the PowerSearch Plug-In window, set your search criteria and PowerSearch retrieves the slides you need—it's that easy! You can search a single presentation, in folders, or even your entire network.

PowerSearch Plug-In is simple and easy to use but contains powerful features that let you find and retrieve slides matching your search criteria. Search specific folders or PowerPoint files, or set advanced criteria such as when the files were created or last modified.

The PowerSearch Plug-In works as a standard PowerPoint Add-In, so it shows up right in your PowerPoint toolbar. PowerSearch Plug-In is designed to work with PowerPoint 97 and PowerPoint 2000, but is optimized for PowerPoint XP.

PowerSearch key features and benefits:

- ▶ Search for and retrieve individual PowerPoint
- ▶ Displays source information on each slide, number of slides in presentation, PowerPoint file from where slide originated
- ▶ Source information hyperlinks to the original presentations Instant access from PowerPoint
- ▶ Extremely fast search performance
- ▶ Simple and easy to use
- ▶ Search for any word or phrase, in any slide on your computer - or across your network!
- ▶ Flexible search options - find and retrieve only slides you need
- ▶ Save hours - avoid manually browsing through PowerPoint presentations
- ▶ Works in Powerpoint 97/2000 - optimized for PowerPoint XP
